

Oracle Business Intelligence Enterprise Edition (OBIEE) Public LR2000 Reports Tutorial

The image is a screenshot of the Bureau of Land Management (BLM) website's LR2000 Reports page. At the top left is the BLM logo and the text "U.S. DEPARTMENT OF THE INTERIOR BUREAU OF LAND MANAGEMENT". To the right of the logo is a navigation bar with a home icon, "Applications", and "Reports". Below the logo is a breadcrumb trail: "Home > Land & Mineral System". On the left side, there is a vertical menu with the following items: "LR2000 REPORTS" (highlighted), "ABOUT LR2000", "INSTRUCTIONS", "REFERENCE CODES", and "CONTACT US". The main content area has a heading "Land & Mineral System Reports". Below the heading is a paragraph explaining that the BLM administers over 245 million surface acres and that the LR2000 system provides reports on land and mineral use authorizations. This is followed by a list of four report types: Case Recordation (CR), Mining Claim Recordation (MC), Status (ST), and Legal Land Description (LLD). At the bottom of the main content area, there is a note about system availability and a link for mining claimants to pay fees online.

Land & Mineral System Reports

The Bureau of Land Management (BLM) administers more public land - over 245 million surface acres - than any other Federal agency in the United States. Most of this land is located in the 12 Western states, including Alaska. The BLM's Legacy Rehost System, called LR2000, provides reports on BLM land and mineral use authorizations for oil, gas, and geothermal leasing, rights-of-way, coal and other mineral development, land and mineral title, mining claims, withdrawals, classifications, and more on federal lands or on federal mineral estate. The LR2000 enables users to access the same information over the Internet as in the BLM State Office Information Access Centers.

LR2000 provides access to the following systems. To run reports you will need to know which of the following systems the information you are looking for is in:

- **Case Recordation (CR)** contains information on land and mineral use authorizations, title, withdrawals, classifications, and more issued by the BLM on federal actions affecting public lands of the United States.
- **Mining Claim Recordation (MC)** contains information on unpatented mining claims located on federal lands.
- **Status (ST)** contains information on withdrawals, land classifications, and title transfer documents issued mainly before 1984. Title documents transferred lands in and out of government ownership.
- **Legal Land Description (LLD)** contains cadastral survey data and other information such as state, county, BLM field office, and surface management agencies (BLM, Forest Service, etc.).

Please see the options on the left for further information about the LR2000 system, as well as informational resources such as user guides and reference materials.

Note: -LR2000 is not available from 1:00 AM – 3:00 AM Mountain Time.
-Mining Claimants can now pay their annual maintenance fees online at <https://payp.blm.gov/eppcore/home>.

The Pub CR Serial Register Page

Selection of the **Pub CR Serial Register Page** from the LR2000 Report Menu displays the five options available for running SRP reports.

Select **New Format Serial Entry** then click **Open**.

Report Criteria – Pub CR Serial Register Page

Pub CR Serial Register Page Report

Purpose

The six criteria groupings for the Serial Register Page (SRP) Report offer the capability to request Serial Register Pages with a variety of selection options.

Notes: This report differs from the CR Serial Register Page (Live Data) Report in that the data is current only to the date of the last incremental update. The data in the Report Database is updated nightly.

Report Criteria - Pub CR Case Information Report

Pub CR Case Info Report

▲ Purpose

This report is useful in analyzing lands and minerals casework, providing statistics, listing cases in various categories. The report produces listings of cases or total number of cases based on a combination of required and optional criteria.

Public CR Case Information

Please select the following Mandatory criteria.

Select one or more from the list of Admin States.

You may select EITHER the Case Group Code OR Case Group OR Case Type.

To select multiples for the Action Code, click on the "More/Search" option. Enter an action code and click "Search". Move the selection to the right using the > button. Continue searching for action codes if needed.

Click Next to continue.

Report Criteria – Pub CR Geo Report w/ Customer

Pub CR Geo Report w/ Customer

▲ Purpose

This report produces a geographic listing of case information based on retrieval by Meridian/Township/Range and/or section. This report format will display the customer name, interest, percentage of interest as well as serial number, case type, disposition, disposition date, acreage and legal description sorted in Serial Number or MTR order.

Pub CR Geo Report with Customer

Asterisks (*) indicate mandatory criteria. Click "NEXT" to continue or "OK" to run the report.

In addition to the mandatory criteria you MUST select at least ONE of the following criteria.
NOTE: When entering Meridian, Township, Range you may select from the list or type in the value.
When typing in the value do not use commas or dashes and you must zero fill, e.g., 07 0010S 0050E.
