RAS Allotment Information Report

Description of the Allotment Information Report

Description: This report consists of a list of all allotments within the selected office and includes the following data.

Column Heading	Description/Definition
Admin State	A two character code assigned to identify each BLM Administrative State
Admin Office	A 10 character code assigned to identify each BLM office. The BLM administrative state is identified by the second and third letters of the code.
Field Office	The name of a BLM Office
Allotment Number	A BLM-wide unique 7 character code assigned to a grazing allotment.
Allotment Name	The allotment name
Available for Grazing	Y or N: If N then a reason will be displayed in the Grazing Decision column
Grazing Decision	The reason an allotment is not available for grazing: Closed – LUP Decision (LUP = Land Use Plan) Closed – NLCS Proc (NLCS = National Land Conservation System) TNR Allotment – TNR = Temporary Non-Renewable use only Other
Public Acres	The number of acres of BLM administered public land that lie within the allotment
AMP Text	The type of activity plan that has been or will be implemented for the allotment: N/A – no activity plan has been proposed, written, or implemented for the allotment AMP (Allotment Management Plan) Implemented AMP/CMP Implemented CMP (Coordinated Management Plan) Implemented AMP Written – prepared but not yet implemented AMP Proposed – proposed but not yet written or implemented
AMP Implement Date	The date on which the activity plan was implemented
Authorization Number	A BLM-wide unique 7 character code assigned to a grazing authorization
Permitted AUMS	The number of permitted (active) AUMS adjudicated to permit or lease holders for the allotment
Suspended AUMS	The number of historical permitted AUMS that have been suspended and may only be removed from suspension under the provisions of the grazing regulations at 43 CFR 4100.3-1.
Susp Use Temp	The number of permitted AUMS that have been temporarily

RAS Allotment Information Report

	suspended due to drought, treatment recovery needs, wild fire recovery needs, etc.

Sorting, Re-arranging, and Excluding Columns

Sorting a Column

1.) To sort a column, hover over the column title. An upward and downward arrow will become visible.

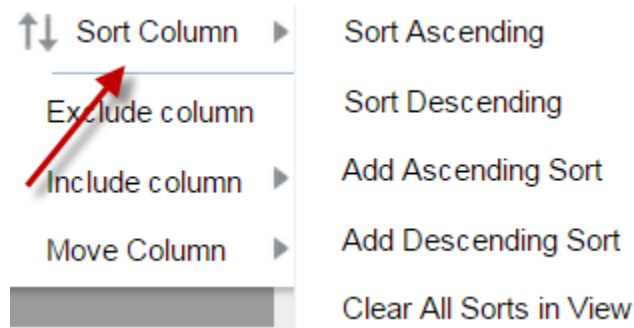

2.) Click the upward arrow to sort in ascending order and the downward arrow to sort in descending order.

RAS Allotment Information Report

3.) You may also RIGHT-CLICK the column. Click **"Sort Column"** and then click on select one of the options.

Clicking the 'Add Ascending Sort' would allow you to sort by COLUMN A and then COLUMN B.

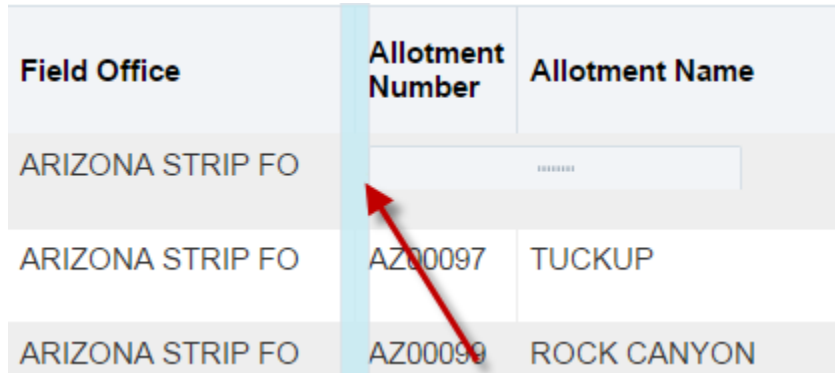

Re-Arranging a Column

1.) To re-arrange a column, hover over the column title. A cursor will change to a four-directional arrow. Please see below:

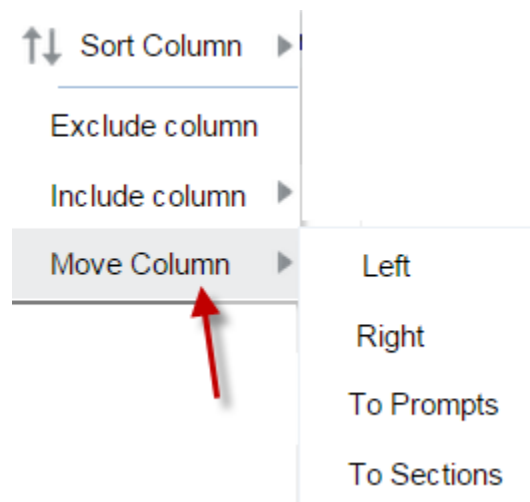

RAS Allotment Information Report

- 2.) When the cursor is changed to a  icon, you may drag and drop the column. To do this, click and hold the column title. Then, move the column until a solid light-blue line appears.

Field Office	Allotment Number	Allotment Name
ARIZONA STRIP FO		
ARIZONA STRIP FO	AZ00097	TUCKUP
ARIZONA STRIP FO	AZ00099	ROCK CANYON

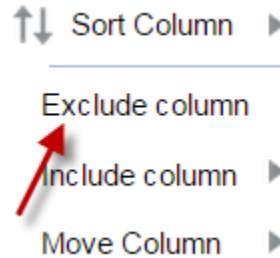

- 3.) Release the mouse. The example above would move the Allotment Name column in between the Field Office and Allotment Number columns.
- 4.) You may also RIGHT-CLICK a column, click **“Move Column”**, and then select where you want to move the column to.

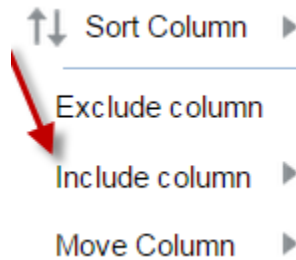

RAS Allotment Information Report

Excluding and Including Columns

- 1.) To exclude a column, RIGHT-CLICK a column and then select **“Exclude column”**.

- 2.) To include a column, you may RIGHT-CLICK any column in the table. Click on **“Include column”** and then select the column you want included.

RAS Allotment Information Report

Scrolling

- 1.) Notice that there may be two different scroll bars. One of them is to scroll within your report (the reports may be hundreds of pages long) and the other is the browser (i.e. Internet Explorer, Google Chrome, Firefox) scroll bar.
